# ENDORSEMENT AND STATEMENT BY THE BOARD OF DIRECTORS AND THE CEO

---

The Interim Consolidated Financial Statements of Arion Bank for the period ended 30 September 2014 include the Interim Consolidated Financial Statements of Arion Bank ("the Bank") and its subsidiaries, together referred to as "the Group".

## Operations during the period

Net earnings amounted to ISK 22,633 million for the period ended 30 September 2014. The Group's equity amounted to ISK 159,765 million at the end of the period. The capital adequacy ratio of the Group, calculated according to the Financial Undertakings Act, was 24.6% and official CET 1 ratio was 20.3%. Both ratios comfortably meet the requirements set by law and the Financial Supervisory Authority ("FME"). The liquidity position was strong at the end of the period and well above the regulatory minimum.

The Group performed well during the period. Net interest income is stable despite the strengthening of the Icelandic krona and lower inflation. Fee and commission income increased substantially, with an increase recorded in all business segments between years. Net impairment of loans and other assets is positive by ISK 2.9 billion, reflecting a successful closure of loan restructuring during the period. The Bank levy is several times higher than the same period in the previous year, but is expected to be similar to last year on a full year basis.

The sale and listing of shares in HB Grandi hf. had a significant influence on the Group's performance in the second quarter. In April the Bank sold an 18.8% share in HB Grandi hf. in connection with the listing of the company on NASDAQ OMX Iceland. Prior to the sale the Bank held a 31% share in HB Grandi hf. and classified the shareholding as Non-current assets and disposal groups held for sale. The realized gain from the sale, amounting to ISK 6,290 million, is recognized as Net gain from discontinued operations but the unrealized gain is included in the Net financial income. The remaining shareholding in HB Grandi hf. is classified as Financial instruments.

The Financial position of the Group at the end of September has changed slightly from the position at year end. The changes in Balances with Central Bank, Loans to credit institutions and Financial instruments are the results of the Bank's liquidity management. In June the Bank sold its subsidiary Landfestar ehf. to Eik fasteignafélag hf. and in return the Bank received a 44% shareholding in Eik fasteignafélag hf. In July the Bank sold a 20% shareholding in Eik fasteignafélag hf. and holds as a result 24% at the end of September. The main effects of the sale of Landfestar ehf. on the financial position of the Group is a decrease in Investment property and an increase in Investment in associates. In May Arion Bank paid ISK 7,811 million dividend to its shareholders.

The Group had 1,135 full-time equivalent positions at the end of the period, compared with 1,145 at the end of 2013, and 899 of these positions were at the parent company Arion Bank hf., compared with 911 at the end of 2013.

## Outlook

Arion Bank is a leading universal bank on the Icelandic market and enjoys a strong position in all its business segments. Over the last few years the Bank has reduced the risk in its loan portfolio by increasing the share of retail mortgage loans, mainly through the acquisition of mortgage portfolios. The loan portfolio now comprises loans to individuals and companies in equal measure. Asset quality has continued to improve and problem loans as a percentage of equity are now starting to resemble those of other Nordic banks. The Bank has taken a leading position in the Icelandic market as regards lending to new export revenue generating industries both in the health care sector and in power intensive industries. The Bank's objective is to further strengthen this position. The Bank has furthermore increased its international loan portfolio by lending to the fishing- and marine industries in the neighbouring countries, thus achieving targets for diversification and growth.

Arion Bank has improved the quality of its funding. The Bank has focused on extending the maturities of its deposit base as demonstrated by its very strong LCR. In October Standard & Poor's confirmed the rating of BB+ and changed the outlook from stable to positive. Bank's credit rating still remains one notch below the rating of the Republic of Iceland. The Bank aims to issue a benchmark bond in the near future and the positive ratings outlook is expected to further enhance investor demand for Arion Bank's bonds.

The core of the Bank's business is traditional banking activities. The focus in the near future will be to further improve operations and to take advantage of the foundations already in place to continue to build a strong diversified bank with healthy returns. In June a new main branch was opened in Borgartún 18, where user-friendly technology is introduced to the customer to a greater extent than before. This is in line with the Bank's aims to continue reducing operating expenses, mainly through automation and further optimization in both back office functions as well as the branch network. The Bank's solid position will enable it to support its customers in their operations and investment activities domestically as well as in their current operation and expansion internationally.

## ENDORSEMENT AND STATEMENT BY THE BOARD OF DIRECTORS AND THE CEO

---

### Group business and ownership

Arion Bank is a group of financial undertakings which provide financial services to companies, institutions and private customers. These services include corporate banking, retail banking, investment banking and asset management. The Group includes subsidiaries in the real estate sector, card services and insurance.

Kaupskil ehf., a company owned by Kaupthing hf., holds 87% of the shares in Arion Bank. The remaining shareholding of 13% is held by the Icelandic State Financial Investments on behalf of the Icelandic government.

### Endorsement of the Board of Directors and the Chief Executive Officer

The Interim Consolidated Financial Statements for the period ended 30 September 2014 have been prepared in accordance with International Financial Reporting Standards (IAS 34 Interim Financial Reporting) as endorsed by the European Union.

It is our opinion that the Interim Consolidated Financial Statements give a true and fair view of the financial performance and cash flows of the Group for the period ended 30 September 2014 and its financial position as at 30 September 2014.

Further, in our opinion the Consolidated Financial Statements and the Endorsement of the Board of Directors and the CEO give a fair view of the development and performance of the Group's operations and its position and describes the principal risks and uncertainties faced by the Group.

The Board of Directors and the CEO have today discussed the Interim Consolidated Financial Statements of Arion Bank for the period ended 30 September 2014 and confirm them by means of their signatures.

Reykjavík, 18 November 2014

## GENERAL INFORMATION

Arion banki hf., the Parent Company, was established 18 October 2008 and is incorporated and domiciled in Iceland. The registered office of Arion banki hf. is located at Borgartún 19, Reykjavík. The Interim Consolidated Financial Statements for the period ended 30 September 2014 comprise the Parent Company and its subsidiaries (together referred to as "the Group").

### 1. Basis of preparation

#### *Statement of compliance*

The Interim Financial Statements are consolidated and have been prepared in accordance with International Financial Reporting Standard IAS 34, Interim Financial Reporting as endorsed by the European Union. The Interim Consolidated Financial Statements do not include all the information and disclosures required in the annual financial statements, and should be read in conjunction with Arion Bank's annual Financial Statements for the year 2013. The statements are available at Arion Bank's website [www.arionbanki.is](http://www.arionbanki.is).

The Interim Consolidated Financial Statements were approved and authorised for issue by the Board of Directors of Arion Bank on 18 November 2014.

#### *Basis of measurement*

The Interim Consolidated Financial Statements are prepared on the historical cost basis except for the following:

- Financial assets and financial liabilities held for trading are measured at fair value;
- financial assets and financial liabilities at fair value are measured at fair value;
- investment properties are measured at fair value; and
- non-current assets and disposal groups classified as held for sale are stated at the lower of their carrying amount and fair value less costs to sell.

#### *Functional and presentation currency*

The Interim Consolidated Financial Statements are presented in Icelandic Krona (ISK), which is the Parent Company's functional currency, rounded to the nearest million unless otherwise stated. At the end of the period the exchange rate of the ISK against the USD was 121.01 and 152.72 for the EUR (31.12.2013: USD 115.09 and EUR 158.49).

### 2. Significant accounting estimates and judgements in applying accounting policies

The preparation of the Interim Consolidated Financial Statements requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an on going basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected.

The key sources of estimation uncertainty are within:

- impairment losses and reversal of impairment losses on loans;
- the foreign currency loan portfolio caused by legal dispute and court judgements;
- investment property;
- assets classified as held for sale; and
- investments in associates.

## OPERATING SEGMENT REPORTING

Segment information is presented in respect of the Group's operating segments based on the Group's management and internal reporting structure. Segment performance is evaluated based on earnings before tax.

Inter segment pricing is determined on an arm's length basis. Business segments pay and receive interest to and from Treasury on an arm's length basis to reflect the allocation of capital and funding cost.

### Operating segments

The Group comprises six main operating segments:

**Corporate Banking** provides services to the Bank's larger corporate customers. Its role is to provide comprehensive financial services and tailored services to meet the needs of each company.

**Retail Banking**, including Arion Bank Mortgages Institutional Investor Fund and AFL - sparisjóður, provide a comprehensive range of services. That includes among other advice on deposits and loans, savings, payment cards, pension savings, insurance, securities and funds. To maximize operational efficiency the branch network is divided into six clusters, with the smaller branches capitalizing on the strength of larger units within each cluster. Customers of Retail Banking's 26 branches all around Iceland are over 100,000.

**The Asset Management** division comprises Institutional Asset Management, Private Banking and Investment Services. Asset Management manages financial assets on behalf of its customers according to a pre-determined investment strategy. In addition the division is the main distributor of funds managed by Stefnir hf. to individuals, companies and institutional investors as well as distributing funds managed by international fund management companies. Stefnir hf. is an independently operating financial company owned by Arion Bank. Stefnir manages a broad range of mutual funds, investment funds and institutional investor funds.

**Investment Banking** is divided into Corporate Advisory, Capital Markets and Research. Corporate Advisory advises customers on securities offerings and the admission of securities for trading on regulated securities markets and also provides M&A advisory services. Capital Markets handles securities brokerage and foreign exchange trading for the Bank's customers. Research publishes regular analyses of listed securities, the major business sectors, markets and the Icelandic economy and also produces economic forecasts. Investment Banking's customers are private individuals, companies and institutions.

**Treasury** is responsible for the Bank's liquidity management as well as currency and interest rate management. The other main functions of Treasury are the internal pricing of interest rates and currency and liaison with other financial institutions.

**Other divisions and Subsidiaries** include market making in domestic securities and currencies. The subsidiaries are Eignabjarg ehf., Eignarhaldsfélagið Landey ehf., Landfestar ehf. (sold in June 2014), Okkar líftryggingar hf., Valitor holding hf. and other smaller entities of the Group.

**Headquarters:** Overhead, Risk Management, Accounting, Legal, Operations and Corporate Development.

<b>Income tax expense .....</b>	<b>4,456</b>	<b>2,851</b>	<b>1,989</b>	<b>1,102</b>

### Reconciliation of effective tax rate

	1.1.-30.9.2014		1.1.-30.9.2013	
Earnings before tax .....		22,505		13,284
Income tax using the Icelandic corporation tax rate .....	20.0%	4,501	20.0%	2,657
Additional 6% tax on financial institutions .....	3.9%	869	5.5%	733
Non-deductible expenses .....	0.1%	23	0.9%	115
Tax exempt revenue .....	(3.8%)	(865)	(3.3%)	(439)
Tax incentives not recognised in the Statement of Comprehensive Income .....	0.0%	-	(1.3%)	(172)
Other changes .....	(0.3%)	(72)	(0.3%)	(43)
<b>Effective tax rate .....</b>	<b>19.8%</b>	<b>4,456</b>	<b>21.5%</b>	<b>2,851</b>

Financial institutions pay 6% additional tax on taxable profit exceeding ISK 1.0 billion.

## NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS

### 14. Bank levy

The Bank levy is 0.376% on total debt excluding tax liabilities, in excess of ISK 50 billions. Non-financial subsidiaries are exempt from this tax. The tax is assessed on financial institutions to meet the funding of a special index and interest relief provided to individual tax payers. The tax rate for Bank levy increased at the end of 2013. Prior to the increase the tax rate was 0.041%.

### 15. Net gain from discontinued operations, net of tax

	2014 1.1.-30.9.	2013 1.1.-30.9.	2014 1.7.-30.9.	2013 1.7.-30.9.
Net gain from legal entities .....	-	11	-	-
Net gain from associated companies .....	6,290	-	-	-
Net gain (loss) from real estate .....	299	(14)	66	62
Net gain from other assets .....	3	-	1	-
<b>Net gain (loss) from discontinued operations, net of tax .....</b>	<b>6,592</b>	<b>(3)</b>	<b>67</b>	<b>62</b>

Net gain from associated companies comprises the realised gain from sale of the Bank's 18.8% share in HB Grandi hf. in connection with the listing of the company on NASDAQ OMX Iceland.

### 16. Earnings per share

	Discontinued operations			
	Excluded		Included	
	2014 1.1.-30.9.	2013 1.1.-30.9.	2014 1.1.-30.9.	2013 1.1.-30.9.
Net earnings attributable to the shareholders of Arion Bank .....	15,777	10,233	22,369	10,230
Weighted average number of outstanding shares for the year, million .....	2,000	2,000	2,000	2,000
Basic earnings per share .....	7.89	5.12	11.18	5.12

There were no instruments at the end of the period that could potentially dilute basic earnings per share (2013: none).

<b>Bonds and debt instruments designated at fair value .....</b>	<b>60,127</b>	<b>57,414</b>	<b>127,197</b>

The total amount of pledged bonds at the end of the period was ISK 14.5 billion (31.12.2013: ISK 18.4 billion and 30.9.2013: ISK 20.8 billion). Pledged bonds comprised Icelandic Government Bonds that were pledged against funding received and included in Due to credit institutions and Central Bank as well as short positions included in Financial liabilities at fair value.

### *Settlement of Drómi Bond*

At the end of 2013 the Bank reached an agreement with Eignasafn Seðlabanka Íslands ehf. (ESÍ) on the settlement of a bond issued by Drómi hf. in 2009, when deposits from SPRON were transferred to Arion Bank. The bond was secured with all Drómi's assets and also with a hold harmless statement from the Ministry of Finance and Economic Affairs. The bond was due in June 2014 with a possible extension to 2015. The agreement stated that the Bank would acquire loans to individuals held by Drómi hf., Frjálsi hf. (subsidiary of Drómi hf.) and Hilda hf. (entity held by ESÍ). The bond was fully settled in April 2014 through this agreement.

## 22. Fair value hierarchy

The Group uses the following hierarchy for determining and disclosing the fair value of assets and liabilities by valuation technique:

Level 1: quoted (unadjusted) prices in active markets for identical assets or liabilities;

Level 2: valuation techniques for which all significant inputs are market observable, either directly or indirectly; and

Level 3: valuation techniques which include significant inputs that are not based on observable market data.

For assets and liabilities that are recognised at fair value on a recurring basis, the Group determines whether transfers have occurred between Levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting year.

<b>Financial liabilities not carried at fair value .....</b>	<b>773,099</b>	<b>765,709</b>	<b>7,390</b>

Financial assets and financial liabilities predominantly bear interest at floating rates. For assets and liabilities not at floating rates fair value is determined by Level 2 methods for which the valuation input is market observable interest rates.

Retail mortgages are estimated by using the discount cash flow method with the interest rates offered on new loans, taking into account mortgaging. Defaulted loans are estimated at book value as no future cash flow is expected on them. Instead they are written down according to their estimated potential recovery value. Other loans, including corporate loans, are estimated at book value as they are generally of a shorter duration than retail mortgages and the interest rate risk on them is therefore limited.

The estimate of the fair value of loans has changed from last year, as the Bank now uses improved methodology. When the methodology was updated it took into account recent transactions with the ESÍ loan portfolio.

Comparative figures year end 2013 have been changed. Figures for 30 September 2013 are not available.

## 23. Offsetting financial assets and financial liabilities

### *Financial assets subject to enforceable master netting arrangements and similar arrangements*

Reverse repurchase agreements have been made for assets amounting to ISK 6,564 millions (31.12.2013: ISK 10,381 millions) to meet short positions on derivative contracts amounting to ISK 5,374 millions (31.12.2013: ISK 8,199 millions). Derivatives are lower compared to year end nettings. Due to the settlement of Drómi bond there is no netting of Deposits against Other assets at the end of

Accounting policies for offsetting are provided in Note 53 in the Annual Financial Statements for 2013.

## 24. Investments in associates

## NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS

### 30. Pledged assets

<i>Pledged assets against liabilities</i>	30.9.2014	31.12.2013	30.9.2013
Assets, pledged as collateral against borrowings .....	227,581	258,762	262,389
Assets, pledged as collateral against loans from credit institutions and short positions .....	14,496	18,440	20,801
<b>Pledged assets against liabilities</b> .....	<b>242,077</b>	<b>277,202</b>	<b>283,190</b>

The Group has pledged assets against borrowings, both issued covered bonds and other issued bonds and loan agreements. The total value of those pledged assets was ISK 228 billion at the end of the period (31.12.2013: ISK 259 billion and 30.9.2013: ISK 262 billion). Those assets were mainly pool of mortgage loans to individuals, loans to municipals and loans to state related entities. The book value of those borrowings was ISK 178 billion at the end of the period (31.12.2013: ISK 190 billion and 30.9.2013: ISK 187 billion).

Assets are primarily pledged against borrowings associated with the acquisition of the pledged assets. Two major events are most significant. Assets were acquired from the Central Bank of Iceland in conjunction with the recapitalization of Arion Bank on 8 January 2010 and a portfolio of mortgages was acquired from Kaupthing hf. and is pledged against a structured covered bond that Arion Bank took over as issuer of from Kaupthing hf. at the end of 2011.

The Group has pledged bonds against short term lending from the Central Bank of Iceland and against short positions, related to swap agreements, to hedge market risk of those assets.

### 31. Equity

#### *Share capital and share premium*

According to the Bank's Articles of Association, total share capital amounts to ISK 2,000 million, with par value of ISK 1 per share. The holders of ordinary shares are entitled to receive dividends as approved by the general meeting and are entitled to one vote per share at Shareholders' meetings.

Loan commitments .....	90,897	48,585	69,725

#### *Depositors' and Investors' Guarantee fund*

The Icelandic parliament has discussed a bill on a new Depositors' and Investors' Guarantee Fund, without conclusion of the matter. Due to uncertainty of the shape of future legislation the liability brought forward from previous years is not changed from the balance of ISK 2,669 million. The Group has granted the Fund a guarantee for obligations amounting to ISK 3,210 million.

### 33. Assets under management and under custody

	30.9.2014	31.12.2013	30.9.2013
Assets under management .....	908,262	895,457	900,214
Assets under custody .....	1,367,718	1,490,888	1,414,477

### 34. Legal matters

The Group has formal controls and policies for managing legal claims. Once professional advice has been obtained and the amount of loss reasonably estimated, the Group makes adjustments, if appropriate, to account for any adverse effects which the claims may have on its financial standing. At the end of the period, the Group had several unresolved legal claims.

#### i) Contingent liabilities

##### *Investigation and legal proceedings regarding alleged breaches of competition law*

The Icelandic Competition Authority (ICA) has opened a formal investigation into practices of all card issuers in Iceland, including the Bank, and by two card payment acquirers, including Valitor. The investigation was initiated by a complaint by Kortþjónustan hf., a card payment acquirer, in 2009. The case concerns alleged concerted practices through associations of undertakings connected to decisions on multilateral interchange fees and alleged anti-competitive practices towards competitors in the field of acquiring.

The ICA has also opened a formal investigation into the alleged abuse of an alleged collective dominant position by the three largest retail banks in Iceland, including the Bank. The investigation was initiated by separate complaints from BYR hf. and MP banki hf. made in 2010. The complaints from BYR hf. and MP banki hf. concern the terms of the Banks' mortgage arrangements, which, according to the complaint, deter individuals from moving their business to other banks and thereby restrict competition.

The extent of the investigations and outcome of the cases before the ICA is still uncertain as well as any effect on the Group. However, if the Bank or Valitor will be deemed to have violated the Competition Act, it could result in a fine or restrictions by the ICA.

In April 2013 the ICA imposed a ISK 500 million fine on Valitor for abusing its dominant position on the payment card market and violating conditions set in an earlier decision of the Authority. Valitor appealed the decision to the Competition Appeals Committee. In October 2013 the Committee confirmed the decision of the Competition Authority. Valitor has referred the decision to the courts of law for annulment.

# NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS

## 34. Legal matters, continued

In 2012 Kortabjónustan hf. filed a suit against Valitor claiming damages for the alleged loss suffered by Kortabjónustan hf. due to alleged breaches of competition law based on a settlement made by Valitor with the ICA, published in ICA decision No 4/2008. The case is still being contested before the District Court of Reykjavík. In July 2013 Kortabjónustan hf. filed another suit, now against the Bank and Valitor, as well as Landsbanki, Íslandsbanki and Borgun hf., claiming damages for the alleged loss suffered by Kortabjónustan hf. in relation to the alleged breaches of competition law based on the complaint to the ICA in 2009, stated above. The case is being contested before the District Court of Reykjavík.

### *Legal proceedings regarding the Bank's variable interest rate*

Two borrowers have issued summons against the Group where they claim that a clause in their mortgage loan (in foreign currency), where it is stated that the bond shall bear a variable interest rate, which the Bank was authorised to change, is illegal and unbinding. The borrowers make e.g. the claim that it will be recognised by the court that said clause on interest rates is illegal. With a judgment of the District Court of Reykjavík on 20 December 2013 the Group was acquitted. The judgment was appealed to the Supreme Court of Iceland and the Bank was acquitted with a judgement on 6 November 2014.

### *Legal proceedings regarding damages*

The former chairman of the Board of BM Vallá hf., together with Lindarflöt ehf., have filed two cases against the Bank claiming damages which they believe they suffered because of the conduct of the Bank's employees in connection with the bankruptcy of BM Vallá and its subsidiary, Fasteignafélagið Ártún ehf. In the two cases the plaintiffs claim in total damages in the amount of over four billion ISK plus further specified interests. The plaintiffs claim that the Bank caused them, as shareholders of BM Vallá and Fasteignafélagið Ártún, damage by not granting the companies financial restructuring and thereby forcing the companies into bankruptcy. The Bank believes more than less likely that it will be acquitted of the plaintiff's claims in both cases and has therefore made no provision.

### ii) Other legal matters

#### *Legal proceedings regarding CPI loans*

In 2013 the Supreme Court of Iceland requested an Advisory Opinion from the EFTA Court in two separate cases regarding the interpretation of certain provisions of EC directives, in cases where the disagreement is whether the CPI-indexation of a consumer loan and its presentation is in accordance with certain provisions of Icelandic law on contracts and consumer loans. An Advisory Opinion in one of those cases was published 28 August 2014 where it was stated that the EC directive does not in general prohibit the indexation of consumer loans and that it was up to the domestic courts to assess whether the terms of such loans were fair. This case is now pending the ruling of a district court in Iceland. The other case was presented to the EFTA Court 11 June 2014 and the Advisory Opinion will be published 24 November 2014. It is difficult to predict the likely outcome in these cases. If successful in a court case, one possible outcome is that a debtor would receive a part or all of the CPI-indexation of his loan annulled. The Group considers the possibility of this happening unlikely and has therefore made no provision due to this.

#### *Act no 35/2014 on "adjustment" of CPI-indexed mortgage loans*

In May 2014 the Icelandic Parliament passed a bill on adjustment of CPI-indexed mortgage loans, Act no 35/2014. The Act entails that all individuals who had indexed mortgage loans in 2008-2009 can apply to have their loans reduced by the amount corresponding to the difference between real inflation compensation and adjusted inflation compensation. The adjusted figure can be a maximum of ISK 4 million for each household and if borrowers have already had some of their mortgage written down, that amount will be subtracted from the figure being adjusted. When the amount has been adjusted, the current loans of the borrower in question will be reduced by that amount and moved into a special "adjusted loan". The Treasury estimates to finish paying the adjusted part of the loan in the beginning of the year 2016, provided that funding is obtained from the Parliament. The applications period is to 1st of September 2014 and the extent of the adjustment will be clearer after that date. In Article 2 of the Act it is expected that the Treasury will reach an agreement with the Bank on the execution and settlement of the adjustment and that the aim should be not to create any profit or loss to the Bank. Negotiation between the concerned parties has not been concluded.

# NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS

---

## 35. The uncertainty regarding the book value of foreign currency loans

As summarized in Note 37 to the Annual Financial Statements 2013, the book value of foreign currency loans has been subject to uncertainty arising from various court cases and changes in law since the Group's formation in 2008. This uncertainty continues in 2014 and the Group constantly monitors judgments in court cases it is party to as well as other relevant court cases to refine its provisions on foreign currency loans.

After consideration of such judgments, the Group has provisioned a total amount of ISK 22.3 billion of which ISK 18.9 billion have been written-off since 2011.

Although there is more clarity in the matters of foreign currency loans, due to the judgments pronounced by the Supreme Court of Iceland in 2013, there still remains uncertainty regarding those loans, e.g. what interest rate foreign currency-linked loans should bear from the date they are recalculated and until their final maturity. Nevertheless, the Group considers its portfolio of foreign currency-linked loans fully provisioned for the most likely outcome.

## 36. Events after Balance Sheet date

In October the Bank finished offering of 6 months bills. Total offers amounted to ISK 3,690 million and the Bank accepted offers amounting to ISK 2,120 million at 6.00% interest. The bills have been admitted for trading on NASDAQ OMX Iceland.

In November the Bank finished offering of 6 months bills. Total offers amounted to ISK 480 million and the Bank accepted all the offers at 5.80% interest. The aim is to list the bonds at NASDAQ OMX Iceland by the end of November.

# NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS

## RELATED PARTY

### 37. Related party

The Group has a related party relationship with Kaupskil ehf., being the ultimate controlling party with 87% stake in Arion Bank, the Board of Directors of Kaupskil ehf. and Kaupthing hf., being the parent company of Kaupskil ehf.

Icelandic State Financial Investments (ISFI, a separate state institution under the Ministry of Finance) manages a 13% stake in Arion Bank and thus has influence over the Group. ISFI and related entities are defined as related parties.

The Board of Directors of Arion Bank, key Management personnel of the Bank and the Group's associates are defined as related parties, as well as close family members of individuals referred to above and legal entities controlled by them.

No unusual transactions took place with related parties during the period. Transactions with related parties have been conducted on an arm's length basis. There have been no further guarantees provided or received for related party receivables or payables.

Through the ownership of ISFI the Group has a related party relationship with Landsbanki Íslands hf. Landsbanki Íslands hf. provides banking services to the Bank's subsidiary Valitor hf. The Group holds assets amounting to ISK 11,666 million (31.12.2013: ISK 12,185 million and 30.9.2013: ISK 10,719 million) by Landsbanki Íslands hf. and liabilities amounting to ISK 5,744 million (31.12.2013: ISK 7,234 million and 30.9.2013: ISK 6,878 million). Those amounts are not included in the table above.

# NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS

## RISK MANAGEMENT DISCLOSURES

The Group faces various risks arising from its day to day operations. Managing risk is therefore a core activity within the Group. The key to effective risk management is a process of on-going identification of significant risk, quantification of risk exposure, actions to limit risk and constant monitoring of risk. This process of risk management and the ability to evaluate, manage and correctly price the risk encountered is critical to the Group's continuing profitability as well as to be able to ensure that the Group's exposure to risk remains within acceptable levels.

Further information regarding risk management is available in the Annual Consolidated Financial Statements for 2013 and in the Pillar 3 Risk Disclosures for 2013, published on the Bank's website, [www.arionbanki.is](http://www.arionbanki.is). The Pillar 3 Risk Disclosures are not audited.

### 38. Credit risk

Credit risk is the risk that the Group will incur a loss because its customers or counterparties fail to discharge their contractual obligations.

Credit risk arises anytime the Group commits its funds, resulting in capital or earnings being dependent on counterparty, issuer or borrower performance. Loans to customers and credit institutions are the largest source of credit risk. Credit risk is also inherent in other types of assets, such as bonds and debt instruments, and off balance sheet items such as commitments and guarantees.

#### *Maximum exposure to credit risk*

The following table shows the maximum exposure to credit risk for the components of the Interim Consolidated Statement of Financial Position, at the end of the reporting period before the effect of mitigation due to collateral agreements or other credit enhancements.

<i>Maximum exposure to credit risk related to on-balance sheet items</i>	30.9.2014	31.12.2013	30.9.2013

#### *Collateral and other credit enhancements*

The amount and type of collateral required depends on an assessment of the credit risk of the counterparty and the exposure type. The main types of collateral obtained are as follows:

- Retail loans to individuals: Mortgages in residential properties.
- Corporate loans: Charges over real estate properties, fishing vessels and other fixed and current assets, inventory and trade receivables, cash and securities.
- Derivative exposures: Cash, treasury notes and bills, asset backed bonds, listed equity and funds that consist of eligible securities.

Collateral value is monitored and additional collateral requested in accordance with the underlying agreement. Collateral value is reviewed in line with the adequacy of the allowance for impairment losses.

\* The figures for individually impaired reflects both impairment due to legal uncertainty related to foreign currency loans as well as impairment due to a deterioration in the borrower's credit quality.

# NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS

## 38. Credit risk, continued

### *Neither past due nor impaired loans*

The Bank uses internal credit rating models to monitor the development of credit risk and to estimate customers' probability of default (PD). The Bank rates customers with one of three models. For large corporates the Bank uses quantitative information based on financial statements as well as qualitative data. Credit ratings of individuals and SMEs are based on statistical models using historical information which has been found to be predictive.

The table below shows loans to customers which are neither past due nor impaired, broken down by the Bank's classification scale, where 5 denotes the highest risk. Comparative figures are not available for 30 September 2013.

Exposures that are "Not rated" are primarily due to newly formed entities and entities for which the Bank's rating models are deemed unreliable. The credit rating for large corporates is based on annual statements and is valid for a maximum of 18 months after the financial date of those statements. Many ratings therefore lapse during Q3 and are not in all cases renewed in time for Q3 Financial Statements which can lead to a temporary increase in exposures that are classified as "Not rated".

This note separates impairments that are due to the uncertainty related to foreign currency loans from impairments that are due to borrower credit quality. At year end 2013, a provision for losses due to court rulings for illegal FX loans was ISK 902 million, in addition to liability to customers of ISK 4,524 million. The provision is reduced to ISK 549 million and the liability to customers is ISK 2,842 million at 30 September 2014. Recalculation during the period resulted in an additional ISK 805 million impairment and ISK 1,158 million write-off or repayments.

# NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS

## 38. Credit risk, continued

### Large exposure

A large exposure is defined as an exposure to a group of financially related borrowers which exceeds 10% of the Group's capital base net of eligible collateral according to FME rules No 625/2013.

The legal maximum for individual large exposures is 25% of the capital base and the sum of all large exposures cannot exceed 400% of the capital base.

The largest exposure to a group of connected clients at the end of the period was ISK 25 billion (31.12.2013: ISK 29 billion and 30.9.2013: ISK 29 billion) before taking account of eligible collateral. The Group has three large exposures at the end of the period (31.12.2013: three exposures and 30.09.2013: four exposures) net of eligible collateral.

no.	30.9.2014		31.12.2013		30.9.2013

\* The Drómi bond, which the Group received when acquiring deposits from SPRON hf. in March 2009, was closed by contract at year end 2013.

No large exposure exceeds the legal limit of 25% of the Group's capital base at the end of the period.

The sum of exposures exceeding 10% of capital base is 36% of the Group's capital base before collateral mitigation or 36% net of eligible collateral, which is well below the 400% legal maximum.

## 39. Market risk

Market risk is the current or prospective risk where changes in financial market prices and rates will cause fluctuations in the value and cash flows of financial instruments.

### Interest rate risk in the non-trading book

The following table shows the sensitivity of the Group's net present value of interest bearing assets and liabilities to changes in interest rates by currencies and interest fixing periods. Risk is quantified as the net change in value of interest bearing assets and liabilities when assuming a simultaneous parallel shift upwards of all yield curves by 100 basis points. The sensitivity does not relate to variation of annual net interest income.

## NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS

### 39. Market risk, continued

#### *Inflation risk*

The Group is exposed to inflation risk when there is a mismatch between inflation linked assets and liabilities. The total amount of indexed assets amount to ISK 297.5 billion (31.12.2013: ISK 291.6 billion and 30.9.2013: ISK 263.0 billion) and the total amount of indexed liabilities amount to ISK 199.0 billion (31.12.2013: ISK 223.7 billion and 30.9.2013: ISK 219.9 billion).

The following table shows the transaction maturity profile of indexed assets and liabilities. In previous statements, the profile was based on residual maturity. The 30 September 2013 figures have therefore been updated to cash flow basis for accurate comparison. Financial instruments held for proprietary trading or for liquidity purposes are assumed to be on demand.

30.9.2014	Up to 1 year	1 to 5 years	Over 5 years	Total
<b>Assets, CPI indexed linked</b>				
Loans to customers .....	24,900	71,895	196,693	293,488
Financial instruments .....	1,254	-	-	1,254

CPI Balance 30.9.2013 .....	(47,144)	53,422	36,757	43,035

#### *Currency risk*

Currency risk is the risk of loss due to adverse movements in foreign exchange rates. The Group is exposed to currency risk through a currency mismatch between assets and liabilities. ISK denominated deposits are a primary source of funding for the Group whereas a substantial part of the Group's assets consist of foreign currency denominated loans to customers. Net exposures per currency are monitored centrally in the Bank.

# NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS

## 40. Liquidity risk

Liquidity risk is defined as the risk that the Group, though solvent, either does not have sufficient financial resources available to meet its liabilities when they fall due, or can secure them only at excessive cost. Liquidity risk arises from the inability to manage unplanned decreases or changes in funding sources.

### *Liquidity coverage ratio*

On 1 December 2013 new liquidity rules issued by the Central Bank of Iceland took effect, overriding rules on liquidity and cash ratios that have previously been reported by the Group. The new rules are based on liquidity standards introduced in the Basel III Accord which are to be implemented in 2015 on a global level. The standard defines the Liquidity Coverage Ratio (LCR), which is the balance between highly liquid assets and the expected net cash outflow of the Group in the next 30 days under stressed conditions.

The criteria for liquid assets used to meet unexpected outflow is stricter for the new liquidity measure. The assets must be non-pledged, liquid and easily priced on the market, repoable at the Central Bank and not issued by the Group or related entities.

The Central Bank has set a guideline for minimum Liquidity Coverage Ratio. As at 1 January 2014, the LCR requirement is 100% in foreign currency and 70% in total (ISK and foreign currency). The latter benchmark increases by 10% every year until a 100% requirement is implemented in 2017.

Liquidity coverage ratio	30.9.2014	31.12.2013
FX .....	196%	274%
Total .....	137%	123%

No comparison is available for 30 September 2013 figures as the new LCR rules took effect 1 December 2013.

### *LCR deposit categorization*

As per the LCR methodology, the Group's deposit base is split into different categories depending on customer type. A second categorization is used where term deposits refer to deposits with a residual maturity greater than 30 days. Deposits that can be withdrawn within 30 days are marked stable if the customer has a business relationship with the Group and the amount is covered by the Deposit Insurance Scheme. Other deposit funds are considered less stable. A weight is attributed to each category, representing the expected outflow under stressed conditions, i.e. the level of stickiness.

# NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS

## 40. Liquidity risk, continued

The table below shows the breakdown of the Group's deposit base according to the LCR categorization, with the associated expected stressed outflow weights. Some similar categories are grouped together.

### LCR categorization - amounts and LCR outflow weights

## 41. Capital management

The capital base at 30 September 2014 amounts to ISK 184,728 million. The capital adequacy ratio, calculated in accordance with Article 84 of the Act on Financial Undertakings was 24.6%, exceeding the minimum legal requirement of 8%.

The Group uses the standardised approach to calculate the capital requirements for credit risk and market risk and basic indicator approach for operational risk.

The Bank carries out an on-going process, the Internal Capital Adequacy Assessment Process (ICAAP), with the aim to ensure that the Bank has in place sufficient risk management processes and systems to identify, manage and measure the Bank's total risk exposure. The ICAAP is aimed at identifying and measuring the Group's risk across all risk types and ensure that the Group has sufficient capital in accordance to its risk profile. FME supervises the Group, receives the Group's internal estimation on the capital adequacy and sets capital requirements for the Group as a whole.

The Group is subject to capital requirements which are specified by the FME following the Supervisory Review and Evaluation Process (SREP). The Group's capital base exceeds the FME's SREP requirements.

## SIGNIFICANT ACCOUNTING POLICIES

The accounting policies adopted in the preparation of these Interim Consolidated Financial Statements are consistent with those followed in the preparation of the Group's annual Consolidated Financial Statements for the year ended 31 December 2013.

*IFRS 10 Consolidated Financial Statements*. IFRS 10 replaces the portion of IAS 27 Consolidated and Separate Financial Statements that addresses the accounting for consolidated financial statements. IFRS 10 establishes a single control model that applies to all entities including special purpose entities. The changes introduced by IFRS 10 requires management to exercise significant judgement to determine which entities are controlled, and therefore, are required to be consolidated by a parent, compared with the requirements that were in IAS 27. This standard has been endorsed by the EU and became effective for annual periods beginning on or after 1 January 2014. Adoption of the standard did not have impacts on the financial position or performance of the Group during the period.

*IFRS 12 Disclosure of Interests in Other Entities*. IFRS 12 includes all of the disclosures that were previously in IAS 27 related to consolidated financial statements, as well as all of the disclosures that were previously included in IAS 31 and IAS 28. These disclosures relate to an entity's interests in subsidiaries, joint arrangements, associates and structured entities. A number of new disclosures are also required. This standard has been endorsed by the EU and became effective for annual periods beginning on or after 1 January 2014. The standard has no impacts on the financial position or performance of the Group during the period.

### 42. Going concern assumption

The Group's management has made an assessment of the ability to continue as a going concern and is satisfied that the Group has the resources to continue. In making this assessment, management has taken into consideration the risk exposures facing the Group which are further described in the Risk Management Disclosures. The Financial Statements are prepared on a going concern basis.
